The participants also appreciated the contribution of the ECO-CCI Secretariat for providing the necessary assistance and support.

Annex I

Report by Secretary General ECO-CCI on Activities of Women Entrepreneur Council in Meeting on March 3, 2018 at Tehran, Iran

The founder member national chambers of ECO-CCI since the inception of Women Entrepreneur Council of ECO-CCI in July 2008 have been endeavors to enhance the skills of women entrepreneurs of ECO nations so that trade and economic activities could be maximized to the extent of existing potential of ECO region and resultantly it will lead to acceleration in economic development and reduction of un-employment and poverty alleviation in the region.

On the sideline of last meeting, TOBB organized a workshop on capacity enhancement of women entrepreneurs. Moreover, ECO-CCI has created Women portal which will also help in enhancing the market access and identifying new market and business partners. The Women entrepreneurs of ECO Region will have easy access to each other through this web-portal and i am of the firm believe that this web-portal will further intensify the networking amongst the women entrepreneurs

Across the globe, the most chronic problems identified by researchers are women's lack of technical skills and knowledge about business and market and difficulties in acquiring entrepreneurial skills. I would say that the development of opportunities for women is imperative, not only for reasons of equity but also because it makes economic sense. Half of the ECO region's population cannot be ignored: women can make an important contribution in development and economic growth of a nation. However, there is a need to encourage and develop women entrepreneurs for accelerated development and increase in the industrial activities to alleviate poverty.
