The Federation of Chambers of Commerce & Industry (FPCCI) in collaboration with UNDP Pakistan's Decentralization, Human Rights & Local Governance Project (UNDP-DHL) and the Federal Ministry of Human Rights (MoHR) held a series of consultations and trainings on Business & Human Rights (HRDD) for FPCCI and its members in 2023 in the cities of Karachi, Lahore, Islamabad, Peshawar, and Quetta. Through these events, FPCCI and its members were updated on initiatives taken by the Government of Pakistan through the National Action Plan on Business & Human Rights as well as new legislation in international markets which will require Pakistani exporters to comply with human rights and environmental standards. Therefore, FPCCI with the support of UNDP-DHL established a Business & Human Rights Desk which will provide a platform for Pakistani businesses to increase their awareness on responsible business practices. FPCCI looks forward to building this collaboration with UNDP in this regard to contribute to a competitive, sustainable, and rights-based Pakistani economy.
