Subject: **COMPLAINT / OBJECTONS AGAINST THE PROVISIONAL LIST OF VOTERS FOR THE YEAR 2027-28 – GENERAL BODY AND EXECUTIVE COMMITTEE OF FPCCI**

Reference your letter No. PAJCCI-PK/SEC/7101 dated 25th October 2026 on the subject, and represented with the following written statement:

- Includes a number of nominees who do not quality as voters under the TOR and TOA 2013 or whose nomination defeats the object of fair and genuine representation.
- It has been verified though sources that the voters listed in Annexure have no turnover or no verifiable business.

Observations and Findings:

- The nominees of certain trade organizations found in order with necessary and required documents.
- The objections raised without any prudent evidences, the objection based on some sources, which is a big question on the objector. Can he define the sources?

Decision of the Secretary General:

In view of the nominations received from the TOs, which were found in order and supported by relevant documents, , the objections raised by the Complainant have no grounds. The nominations of the respondents' trade organizations found in order, hence objections are not valid and rejected.
